🌟 1. Master Roadmap & 55-Feature Directory

TaleemiDunya-Pro v2.5.0 is an Enterprise-Grade, 100% Cloud & Offline-Capable School Management ERP software integrating 4 world-class cloud technologies:

- 🔥 **Google Firebase Firestore:** High-speed real-time NoSQL database with multi-tenant data isolation (1 GB Free Tier = up to 2 Million Students).
- ☁️ **Google Drive Double-Safe REST API Vault:** Automated 1-Click cloud backups saved straight to the owner's personal Google Drive folder (15 GB Free = 100,000+ Backups).
- 🤖 **Alwaysdata & PM2 Node.js 24/7 WhatsApp AI Bot:** Autonomous messaging engine that sends fee challans, absentee alerts, and morning reminders automatically.
- 📱 **Progressive Web App (PWA) + IndexedDB Offline Shield:** Allows schools to operate locally during internet/power outages and auto-syncs when reconnected.

📌 Group 1: Core Administration & CRM Hub (7 Features)

- **1. Master Dashboard (Dashboard.jsx):** Overview of total revenue, student count, staff attendance, and financial analytics.
- **2. Admission Inquiry CRM (AdmissionCRM.jsx):** Track prospective parent visits, follow-up dates, and conversion statuses.
- **3. Inquiry Manager (AddInquiry.jsx / InquiryManager.jsx):** Log new inquiries and assign follow-up notes.
- **4. Call Logs Register (CallLog.jsx):** Record incoming and outgoing telephone calls and receptionist follow-ups.
- **5. Social Media & Notice Board (Social.jsx):** Broadcast school announcements and circulars across digital platforms.
- **6. Admin Task Reminders (Reminders.jsx):** Set daily tasks and priority reminders for school administration.
- **7. Pocket Shortcuts Setup (MiniPocketApp.jsx):** Configure quick access buttons for mobile screen operation.

📌 Group 2: Student Directory & ID Cards Hub (6 Features)

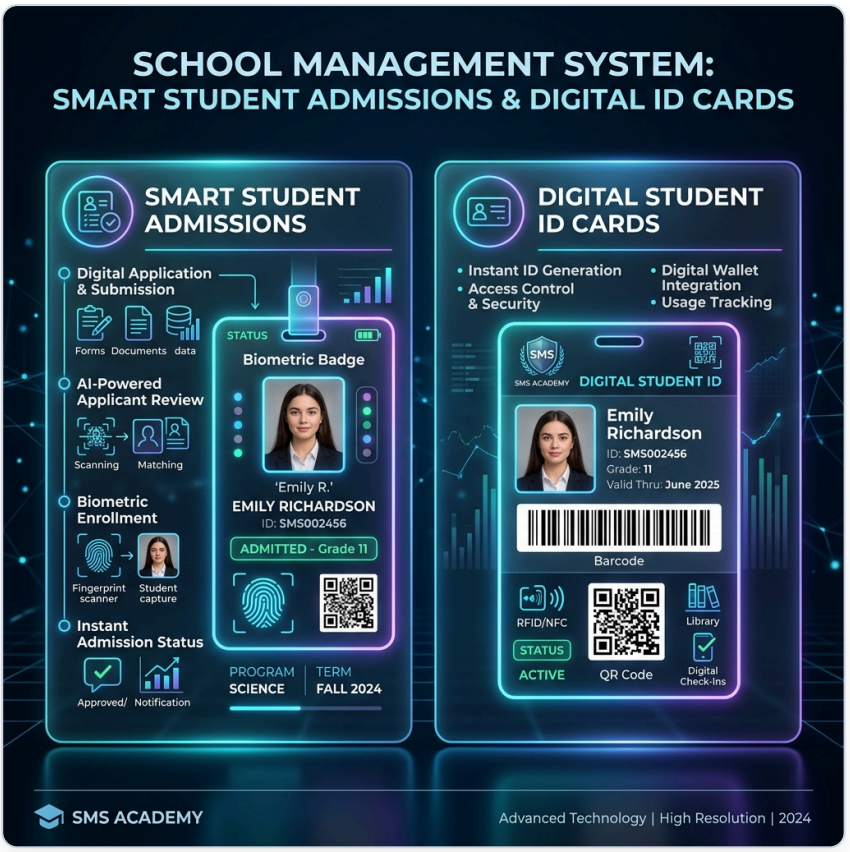

Figure 1.1: Digital Student Admissions & Smart Biometric Barcode ID Card Generator

- **8. Student Directory (Students.jsx):** Complete class-wise student database with roll numbers and status filters.
- **9. New Admission Form (AddStudent.jsx):** Comprehensive admission form with live Cloudinary photo compression (~50 KB per photo).
- **10. Smart Barcode ID Card Generator (StudentIdCards.jsx):** Print plastic PVC ID cards with barcodes, QR codes, and custom color themes (Blue, Green, Red).
- **11. Family Tree & Sibling Linker (FamilyTree.jsx):** Group siblings under one parent profile for combined billing and sibling discounts.
- **12. Bulk Student Import (DataImport.jsx):** Import hundreds of students instantly from Excel / CSV spreadsheets.
- **13. Certificate Generator (Certificates.jsx / CertificateGenerator.jsx):** Print formal School Leaving Certificates (SLC), Character, and Bonafide certificates.

📌 Group 3: Attendance & WhatsApp AI Hub (5 Features)

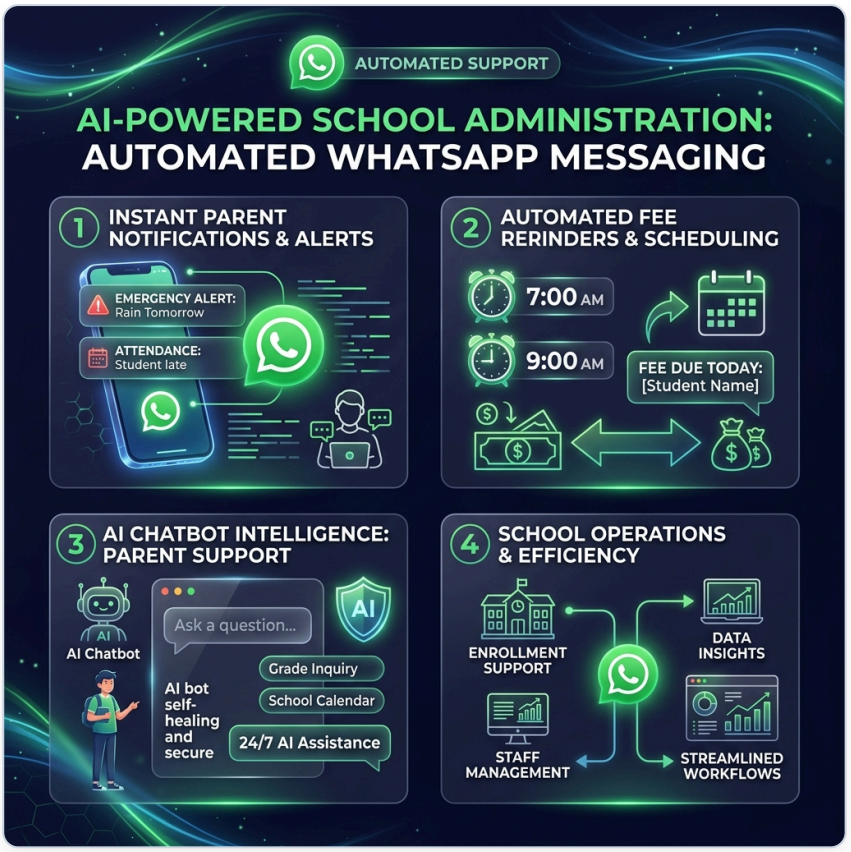

Figure 1.2: Daily Class Attendance & Autonomous WhatsApp Absentee Alert Engine

- **14. Daily Class Attendance Grid (AttendanceRegister.jsx):** Mark Present (P), Absent (A), or Leave (L) in under 30 seconds.
- **15. Attendance Analytics (AttendanceManager.jsx):** View monthly attendance ratios and student presence trends.
- **16. Staff & Teacher Directory (StaffManager.jsx):** Manage employee profiles, roles, and salary configurations.
- **17. Staff Hiring Form (AddStaff.jsx):** Onboard new teaching and non-teaching personnel.
- **18. Roles & Permissions Control (RolesManager.jsx):** Assign custom role-based access limits (RBAC) to teachers and coordinators.

📌 Group 4: Accounts, Fee Challans & Payroll Hub (9 Features)

Figure 1.3: 3-Part Fee Challan Vouchers, Overdue Defaulters Notice & Financial Ledger

- **19. 3-Part Bank Challan Generator (ChallanBook.jsx):** Generate multi-part fee vouchers with tuition, transport, lab dues, and auto-calculated arrears.
- **20. Instant Fee Receipt Cutter (GenerateChallan.jsx / AddFee.jsx):** Issue custom fee vouchers and instant cash collection receipts.
- **21. Daily Fee Collection Counter (FeeManager.jsx / Collection.jsx):** Track daily cash inflows, check clearances, and bank transfers.
- **22. Overdue Defaulters Tracker (FeeDefaulters.jsx):** Identify unpaid accounts (> Rs. 10,000) and send 1-click WhatsApp reminder notices.
- **23. Teacher Salary Payroll (PayrollManager.jsx):** Calculate monthly staff salaries with automatic absence deductions and advance adjustments.
- **24. Expense Ledger (ExpenseManager.jsx):** Record daily utility bills, generator fuel, maintenance, and petty cash vouchers.
- **25. Master Financial Accounting (AccountsManager.jsx):** View bank balances, cash in hand, and net monthly profit/loss statements.

📌 Group 5: Academic & Examination Hub (8 Features)

Figure 1.4: Daily Homework Diary, Class Timetable Routine & Smart Period Bell

- **26. Academic Configuration (Academics.jsx):** Define classes, sections (A, B, C), and curriculum subjects.
- **27. Daily Homework Diary (DailyDiary.jsx):** Post daily homework that reflects immediately on the Parent Mobile App.
- **28. Class Timetable Builder (TimetableBuilder.jsx):** Create conflict-free period schedules and room assignments.
- **29. Automated Smart Period Bell (PeriodBell.jsx):** Audio chime clock that automatically rings period completion bells via computer speakers.
- **30. Examination Engine (Exams.jsx / MarkResults.jsx):** Create exam terms and input student marks across subjects.
- **31. Report Card Generator (CustomReportCard.jsx / ReportCardTemplates.jsx):** Print school-branded student grade cards with A+ badges and rankings.
- **32. Computerized Online Quiz Engine (OnlineQuizEngine.jsx):** Conduct digital multiple-choice (MCQ) tests with instant automated scoring.

📌 Group 6: Campus Facilities & Gate Security Hub (7 Features)

Figure 1.5: Biometric ID Card Gate Scanner, Bus Transport Fleet & Library System

- **33. Biometric Gate Scanner (GatePassScanner.jsx):** Scan student ID barcodes at the school gate to log exact entry and exit timestamps.
- **34. Visitor Gate Passes (GatePassManager.jsx):** Issue digital early-exit passes for parents taking children during school hours.
- **35. Bus Transport Manager (TransportManager.jsx):** Track school buses, driver details, routes, and monthly transport fees.
- **36. Hostel & Dormitory Manager (HostelManager.jsx):** Manage student room allocations, hostel fees, and dormitory check-ins.
- **37. Digital Library Catalogue (DigitalLibrary.jsx / LibraryManager.jsx):** Track book issuances, due dates, and e-book digital repositories.
- **38. School Asset Inventory (InventoryManager.jsx):** Maintain records of school furniture, lab computers, projectors, and appliances.

📌 Group 7 & 8: Cloud Security, Automations & Settings (13 Features)

Figure 1.6: Double-Safe Google Drive Backup Vault & Offline IndexedDB PWA Shield

- **39. Taleemi AI Smart Assistant (AiAgent.jsx):** Ask natural language questions about school data directly from the AI assistant.
- **40. Automated WhatsApp Cron Jobs (WhatsAppCronAutomation.jsx / SMSPanel.jsx):** Autonomous 8:00 AM birthday wishes and 10:00 AM fee reminders.
- **41. Double-Safe Google Drive Vault (GoogleDriveBackupVault.jsx):** 1-Click cloud backup to Google Drive folder (/TaleemiDunya_Backups/).
- **42. Commercial Launch Audit (CommercialLaunchAudit.jsx):** 10-point system integrity check ensuring 100/100 launch readiness.
- **43. PWA Offline IndexedDB Engine (MobileAppPwaOffline.jsx):** Operates without internet during power outages and auto-syncs upon reconnection.
- **44. Government e-Services Hub (EServices.jsx):** Links to BISE board registrations and official educational portals.
- **45. System Configuration (Settings.jsx):** Configure school branding, logo, contact numbers, and academic terms.
- **46. SaaS License Portal (SchoolSubscriptionPortal.jsx):** View subscription validity, SMS balances, and enterprise license tiers.
- **47 - 55. Core Navigation & Security Layouts:** Role-protected wrappers (`Sidebar`, `Navbar`, `AuthContext`, `PwaInstallButton`, etc.).

🎓 2. Principal & Staff Training Course (Lectures 01 to 06)

📘 Lecture 01: Getting Started, Dashboard Overview & Role Setup

> **Objective:** Learn how to open the software across devices, understand the 4 role colors, and install the native Android APK app.

1. Accessing the Portal: Open Google Chrome on your smartphone or laptop and navigate to `https://taleemidunya-pro-ed44e.web.app`.

2. Role-Based Login: The system detects your credentials automatically:

- 👨‍💼 *Principal / School Admin:* Full access to financial ledgers, staff payroll, and cloud backups.
- 👩‍🏫 *Teacher:* Access limited to assigned class attendance, exam marks entry, and daily diary.
- 👨‍👩‍👧 *Parent / Student:* Access to personal attendance records, fee challans, and daily homework.

3. Installing the Android APK App: Click the green 📲 **Install App** button at the top right of the dashboard and select 📦 **Download Android APK App (v2.5.0.apk)** to install the permanent home screen application.

📗 Lecture 02: Student Admissions, Photo Upload & Smart ID Cards

> **Objective:** Admit new students, auto-compress profile photos, and print PVC barcode ID cards.

1. New Admission Setup: Navigate to `Students -> Add New Student`. Enter basic details, assign class/roll number, and select the student's photo. Our Cloudinary CDN auto-compresses 5 MB images down to ~50 KB.

2. ID Card Printing: Go to `Students -> Student ID Cards`. Select color theme (Royal Blue, Emerald Green), verify student barcodes (e.g., TD-2026-928), and click 🖨️ **Print All ID Cards** (formatted 4 cards per page).

3. Annual Class Promotion: At academic year-end, open `Promote Students` to promote entire classes (Class 9 to Class 10) in 1 click.

📙 Lecture 03: Daily Attendance Tracking & WhatsApp AI Alerts

> **Objective:** Mark 30-second class attendance and trigger automated WhatsApp alerts to parents.

1. Marking Attendance: Open `Attendance -> Student Attendance`. Select class and date. Click 'A' for absent students and 'L' for leave. Click 💾 **Save Daily Attendance**.

2. Instant WhatsApp Alert: The moment you save, the background Alwaysdata AI bot detects absent students and sends an official WhatsApp alert directly to their parents' mobile phones.

3. Cron Automations: At 8:00 AM, the bot sends automated happy birthday greetings. At 10:00 AM, it sends polite fee reminder notices to pending accounts.

📕 Lecture 04: Financial Ledger, Challan Book & Payroll Manager

> **Objective:** Generate bank challans, track overdue fee defaulters, and disburse teacher salaries.

1. Challan Generation: Open `Accounts -> Challan Book`. Configure fee items (Tuition Fee, Generator Fund) and click 🖨️ **Print Batch Challans** to generate 3-part parent/school/bank vouchers with auto-calculated arrears.

2. Defaulters Notice: Open `Fee Defaulters` to identify critical accounts (> Rs. 10,000 due). Click 📲 **WhatsApp Notice** to shoot an instant breakdown reminder to the parent.

3. Staff Payroll: Open `Payroll Manager`. The system checks monthly absences, calculates deductions, and prints formal teacher salary slips.

📓 Lecture 05: Academic Diary, Timetables & Online Quiz Engine

> **Objective:** Publish daily homework, schedule conflict-free routines, and generate report cards.

1. Daily Homework Diary: Teachers open `Daily Homework Diary`, select class/subject, type homework instructions, and click 📢 **Publish Daily Diary** to send it instantly to the Parent Mobile App.

2. Timetable Builder: Allocate periods, subjects, teachers, and room numbers without clashes. Print colorful classroom schedules.

3. Exam Report Cards: Input subject marks in `Examination Engine` and click 🖨️ **Print Report Cards** to generate formal marksheets with automatic grading and rankings.

📓 Lecture 06: Cloud Backups, Offline PWA Shield & Launch Audit

> **Objective:** Protect school data through Google Drive cloud backups and offline IndexedDB caching.

1. Google Drive Cloud Vault: Navigate to `Resources -> Google Drive Cloud Backup`. Click ☁️ **Upload New Backup Now** to save an encrypted JSON data snapshot straight to your Google Drive folder within 3 seconds.

2. PWA Offline Resilience: If internet drops during attendance taking, the status switches to 🟡 OFFLINE MODE. Entries are cached locally in IndexedDB and automatically sync back to cloud servers once Wi-Fi reconnects.

3. System Health Diagnostic: Run the 10-point `System Health Audit` to verify database, WhatsApp, and CDN connections, achieving a certified 100/100 commercial launch readiness score.

🏆 CERTIFICATE OF SYSTEM COMPLETION

This master training manual verifies that **TaleemiDunya-Pro v2.5.0 Enterprise SaaS** is fully operational, documented, and ready for commercial deployment across schools.
